- Connecting companies with Ukrainian job seekers

Matching Between Employers and Job Seekers

The platform provides two ways to connect employers and job seekers:

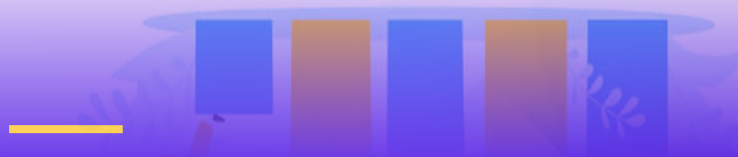

- **Search functionality** - employers can search for workers based on specific criteria such as skills, experience, and location.
- **Direct applying** - job seekers can apply for any job through the platform.

Conclusion

By connecting job seekers with employers, the platform provides a valuable resource for both groups, facilitating the integration of refugees into Bulgarian society and contributing to the local economy.
